This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Preface.

THE date of the first erection of a church or chapel at Didsbury is unknown. The supposed date of the erection of the Church is 1235 A.D., but there are reasons for assigning an even earlier origin.

Didsbury is within the ancient Parish of Manchester, and within the Manor of Withington. Traditionally, the church was a Chapel of Ease to the Parish Church of Manchester, and may have been erected by some Lord of the Manor of Withington, to save his dependents the journey of about six miles to Manchester. It used to serve an extensive district, comprising the Townships of Didsbury, Withington, Rusholme, Moss Side, Burnage, Levenshulme, Reddish, and Heaton Norris.

The present Church is dedicated to St. James. It is conjectured that it was originally dedicated to St. Oswald, but the supposition is chiefly based on the date upon which the Annual Wakes were formerly held.

The Church Registers have been carefully preserved, and extend back to 1561. The entries from that date to 1600 have apparently been copied from previously existing loose sheets, of which there are some indications that the series was incomplete.

The first volume, embracing the period 1561 to 1709, is a tall, oblong volume, bound in vellum. It was rebound in 1806, a fact carefully recorded within its covers by the Parish Clerk, Thomas Wood, one of a long line of Members of his family who held that office, and some at least of whom kept the Ring o' Bells Publichouse, near the Church, besides being farmers and General Retail shopkeepers.

This first volume comprises 118 leaves of parchment, folio size, measuring 14 in. x 6 in. A few entries, owing to damp and constant use, are all but illegible. The task of transcribing them would have been much easier if they had all been made as neatly and uniformly as those down to 1600, but the Parish Clerks, and not the Parsons, generally made them, and their notions of spelling were erratic. In some instances it is very doubtful whether the entry was made at the time, or, after an interval, from still rougher memoranda or recollection. The omission of the child's baptismal name, and even its sex, occasionally occurs.

The entries are in three sections, Marriages, Baptisms, and Burials, but this order does not seem to have been always understood by the person recording the event, and a few baptisms and burials appear in the wrong sections. There are also a few relating to baptisms at Stretford Chapel, about four miles distant, which were made by a minister, who temporarily served the two churches.

The second volume contains sixty-four leaves of parchment, measuring 12in. by 7¼in. It is in a good state of preservation. The entries are for the most part quite legible. The three divisions are maintained as in Vol. I., and the confusions are few in number. There are in the years 1561-1757, a total of 15,323 entries, viz.:

CHRISTENINGS	6610
MARRIAGES	1064
BURIALS	7649
TOTAL	15323

The transcription of the first volume has been made and edited by Mr. Crofton, while the transcription of the second volume with the indexes has been made by the Rev. E. Abbey Tindall. Invaluable assistance in proof-reading has been rendered by Mr. Brierley, Secretary of the Lancashire Parish Register Society, and Mr. Josiah Arrowsmith, the Editor of "Wigan Register."

Lancashire Parish Register Society.

Rules.

1.—That the Society shall be called "THE LANCASHIRE PARISH REGISTER SOCIETY," and shall have for its object the transcribing and publishing of the Registers of the ancient Parishes of the County.

2.—That the affairs of the Society shall be governed by a Council, consisting of a President, Secretary, and Treasurer, with nine other members, to be annually chosen at the general Meeting.

3.—That three members of the Council shall form a quorum.

4.—That the subscription of members of the Society shall be one guinea per annum, which shall entitle them to the publications for the year; but any member whose subscription shall be two years in arrear shall thereupon be removed from the Society, and shall not be re-admitted until all arrears have been paid.

5.—That the subscriptions shall be due on the first of January in each year, and that no work shall be issued to any member whose subscription is in arrear.

6—That an annual meeting of the Society shall be held in the month of February, of which due notice shall be sent to all the members. At this meeting, a report of the work of the Society, with a statement of the income and expenditure, shall be presented. These shall be annually published, together with a list of members and the rules of the Society.

7.—That so long as the funds of the Society permit, two volumes at least shall be issued to members in each year.

8.—That no payment shall be made to any person for editing any work for the Society, but that the Editor of each volume shall be entitled to ten copies of the work so edited by him.

9.—That the Council may require any transcript to be examined by them before publication.

10.—That no volume of Registers be published without a full index of both Christian names and Surnames.

11.—That the Treasurer's accounts shall be audited by a member of the Society, who shall be elected at the annual meeting.

12.—That no alteration shall be made in any of the above rules except at the annual general meeting. Notice of any proposed alterations must be sent to the Hon. Secretary a month before such general meeting.

Lancashire Parish Register Society.

Second Annual Report,

READ to the Members at the Annual Meeting held by adjournment, on Friday, 6th April, 1900, in the Audit Room of the Chetham Hospital.

YOUR COMMITTEE are enabled to congratulate the Society on a year of progress.

In the first year of its History only two volumes could be printed. This year we are enabled to publish three. At our last Annual Meeting we reported 164 members. This year we have 194, and a very satisfactory feature of the new membership has been that—almost without exception—the new members have joined as from the first, so that of the first year's issue, "Bury" and "Burnley," comparatively few copies now remain. Members will already have received, "Whittington," 1538–1764, edited by Miss F. Wrigley and Mr. T. H. Winder; and "Wigan," 1580–1625, edited by Mr. Josiah Arrowsmith; and a volume of "Walton-on-the-Hill," 1586–1663, edited by Mr. Arthur Smith, L.L.B., Clerk of the Peace for Wigan (already partially printed), will be shortly forwarded to them. Thus in its two years issue, five of the Lancashire "Hundreds" are represented in the Society's volumes. For the coming year it is proposed to print the earliest volume of the "Whalley" Registers, edited by Mr. T. B. Ecroyd; "Croston," 1538–1684, edited by our President; "Didsbury," 1561–1757, edited by Rev. A. Tindall, M.A., and Mr. T. H. Crofton; and

"Middleton," edited by Mr. Giles Shaw. The first volume of the Register of "Croston" has been lost since 1827, but through the instrumentality of a member of this Society, has recently been discovered in the De Trafford Estate office, and on application made by our President, permission to transcribe and print was at once granted by Sir Humphrey de Trafford, Bart. It is, therefore, a volume of exceptional interest, as having been recovered after so many years have elapsed, and being one of the oldest Registers in Lancashire: it begins with the year 1538, and, except a very few gaps, is complete to 1684, and contains more than 10,000 entries. The transcript is complete, and M.S. is in the printer's hands. The "Didsbury" transcript is also finished and ready for the press. In addition to "Croston" and "Didsbury," neither of them mentioned in last year's report, leave has also been obtained to print the Registers of "Eccleston," of "Chorley," and of "Over Kellett." Death has unfortunately deprived us of several highly-valued members—among whom, the late Mr. J. E. Worsley, F.S.A., a member of our Council, and the Rev. W. J. Löwenberg, M.A., stand conspicuous. Mr. Worsley was about to edit "Winwick" for the Society, and it will be a satisfaction to the members to learn that Mr. Arthur Smith is prepared—after completion of his "Walton" volume—to take up this work. Mr. Löwenberg, too, has left a beautiful transcript of a further portion of the "Bury" Register to be published in due course. Other deaths are those of Mr. Geo: Jackson, Mr. T. W. Eastwood, Mr. J. H. Hutchinson, and Mr. J. D. Richards. There remains a vacancy on the Council, caused by Mr. Worsley's death, to be filled up by the present meeting. So far as is known, only two members have resigned their membership. Among new members we have to report the adhesion of three important British Libraries (British Museum, Bodleian, and Signet [Edinburgh]); of Lancashire Libraries of the Chorley Public Library and the Hindley Library; and of the Earl of Derby, Viscount Cross, and the President of the Yorkshire Parish Register Society, Sir George Armytage, Bart.; of American Libraries, the

Peabody Institute, Baltimore, and the New York Public Library, have joined us. It is still matter of deep regret that no fewer than seven of the important Lancashire Municipal Libraries have failed to join the Society—though one or two of them have, we believe, the matter under consideration.

The Society has been consulted as to the formation of a Parish Register Society for the County of Hereford.

Our thanks are due to the Editors and Indexers of the various volumes issued for the present year, to the Rectors of Whittington, Wigan, and Walton-on-the-Hill, for the facilities they have afforded for transcription, to the officials of the Chester Diocesan Registry for invaluable information in relation to the Episcopal Transcripts, and to the Feoffees of Chetham's Hospital for their kindness in allowing us to hold our meetings in their premises.

As regards Finance, there is a balance in the Treasurer's hands of £38 11s. 0d., and a stock of volumes worth about £70. The volume of Walton for the year 1899 has yet to be paid for, but the funds will be amply sufficient.
